YREX

brand Ovenware is sparkling, transparent—made of a special heat-resisting glass. In Pyrex Ovenware you can prepare the most appetizing of dishes with the least effort and always be sure of perfect results. You can watch the progress of your baking clear through to the bottom. And these attractive dishes will save you extra dishwashing, for they go direct from oven to table and attractively serve the foods they so efficiently assist in preparing.

Pyrex Ovenware will last a lifetime if you observe these simple rules . . .

Use in the oven—not on top of the stove or near the open flame.

Always handle with a dry cloth when dish is hot.

Avoid pouring cold water into hot dish, or placing hot dish on a wet table top or suddenly in water.

Pyrex Ovenware Actually Bakes Food Better

... says one of the greatest cooking schools in the country. It stores up more heat than ordinary utensils. Then it gives this heat out equally to the sides, center and bottom of the food within. That is why foods baked in Pyrex glassware are creamier, lighter, more beautifully browned.

Pyrex dishes never discolor foods or effect the taste. And it is easy to keep them immaculately clean—always sparkling, and just like new.

PYREX NURSING BOTTLES

DOCTORS all over the country are urging the use of Pyrex nursing bottles, because of their absolute safety in sterilizing. Pyrex nursing bottles minimize bottle breakage resulting from contact with boiling hot fluids. They are six-sided and will not slip from your hand or from baby's. There are no sharp angles inside of the bottle, for easy cleaning. They come in two approved shapes—narrow neck and wide mouth, both in 8 ounce size—the ounces and half ounces plainly marked. The 4 oz. size for fruit juice or water, narrow neck only.
