## SOLOS

Little single-serving dishes for the way America eats today.

Research tells us that a big family supper is no longer the norm. Americans are eating at lots of different times and cooking now and reheating later. That's why we're giving them a line of individual serving dishes with a wide variety of uses — Solos. They're ours alone.

## CORNING WARE® Basic Cookware

The cookware all America knows and loves to give.

Our research tells us that CORNING WARE cookware is in over two-thirds of American homes because we have what Americans want — freezer-to-oven-to-table practicality and a whole gardenful of patterns. Available in starter sets for each new generation of CORNING WARE cookware lovers and in pieces they'll add over the years.

It's dressy.

CORNING WARE® cookware designed for the fashion conscious consumer and for those regular customers who are cooking and entertaining more elaborately nowadays. And, because it's CORNING WARE cookware it's practical enough to use every day. Now, that's entertainment.

## MICROWAVE Cookware

Corning has developed one of the most extensive microwave lines in the housewares industry.

In addition to products designed specially for microwave use, all CORNING WARE® cookware, PYREX® ware and CORELLE® livingware items displaying this symbol on the label, are also recommended for microwave use.

## **PLANT HELPERS™** Products by Corning

The most innovative and exciting new Corning program since the pie plate. Plant Helpers™ Products . . . a beautiful new line of house plant products that has been thoroughly researched and tested to fulfill both trade and consumer needs.

For consumers — not just another flower pot. But a scientifically researched growing system that can help produce healthier, more beautiful plants. And they're as good looking as they are good for plants. All 12 items are individually gift packaged.

For the trade — an exciting point-of-sale display kit, hand out brochure, and audio visual program. Trade and consumer print advertising campaign. Aggressive national television advertising campaign.

This is a program designed to make sales of Corning Plant Helpers™ products flourish.

We hope you will be sharing that growth.

## PYREX® ware

Good cooks have been depending on PYREX® ware ever since Corning invented its heat-resistant glass in 1915.

### Ovenware

Cooks depend on its durability. The fact that it can go from refrigerator-freezer directly into a preheated oven. They also depend on its versatility. For baking, serving, and storing, for microwave, and they can turn to Fireside for a warm, mellow look.

### Gifts

Cooks count on PYREX ware to always offer a complete selection of items that can be used both in the kitchen and throughout their house . . . or be given as gifts.

## PYREX<sup>®</sup> ware Decorated

Finally, cooks depend on its beauty and adaptability. They mix and match PYREX<sup>®</sup> ware compatibles with CORELLE<sup>®</sup> livingware patterns and other tableware settings for a totally coordinated look.

And offers the same durability, versatility and practicality cooks have always trusted in PYREX ware.

## PYREX<sup>®</sup> ware

We all depend on it. It's the only glass bakeware asked for by name. A lot of cooks just won't buy anything else. That's loyalty. That loyalty produces a very high sales volume. And that means greater profits for you. There really is no choice.

The only bakeware, servingware and storageware to sell is PYREX ware.
