OVENWARE

Transparent . . . Look right through PYREX Ovenware and see the food bake or roast to golden brown perfection. See what's cooking, and be a better cook.

Easy-to-clean . . . Sticky foods slide off the smooth surfaces easily. Clear, non-porous PYREX Ovenware won't absorb cooking odors. It stays as sweet and clean as the day it was bought.

Three-in-one . . . One dish does the work of three because you can bake, serve, and store in the same sparkling dish. Dainty on the table, and compact in the refrigerator. Saves time and fuel.

Prepared Mixes . . . All dishes have been designed for the baking of Prepared Mixes.

INSTRUCTIONS

Following these simple rules will give a lifetime of service from PYREX Ovenware:

- 1** Use it in the oven, not on top of the stove or next to flame.
- 2** When the dish is hot, handle with a dry cloth.
- 3** Avoid pouring water into hot dish.
- 4** Avoid placing hot dish on a wet table top, sink, or in water.

CLEANING—If food scorches in the dish, use 3 tablespoons of baking soda to a quart of warm water, let soak for half hour or longer, then wash with soap and hot water. Avoid using any gritty cleaning powders or pads.

GREASING—PYREX dishes should be generously greased as this lessens dish scrubbing. Put a little water or grease in the dish before adding foods as this shortens the time required for washing.

MINERAL DEPOSITS—To avoid mineral deposits from hard water, wash well with soap and hot water after each use.

PYREX[®] REPLACEMENT OFFER

DOUBLE-TOUGH TUMBLERS

Each measure has dozens of household uses. Permanent red markings on both sides make measuring quick and easy. Handy for pouring liquids and batters without spilling. Quart size can be used with electric mixers and hand beaters. All are heat-resistant and easy to wash. You can use them for measuring hot liquids or for melting shortening or chocolate in the oven.
