GLASS IS A NATURAL FOR MICROWAVE COOKING...AND CORNING MAKES THE MOST OF IT!

Microwave is the hottest thing in housewares today, and we're ready to help you make the most of it.

We use the natural material—heat-resistant glass and glass-ceramic—and shape it into products that are way ahead of their time. We offer old favorites like PYREX® ware pie plates and custard cups, or CORNING WARE® saucepans and roasters. And CORELLE® livingware offers complete flexibility for microwave use with bowls, plates and platters. These items possess the versatility that is so important to consumers—universal products that can be used in microwave as well as conventional ovens.

In addition, we've designed new products and created new sets especially for microwave cooking. Since microwave ovens don't brown foods in the traditional way, we invented browning dishes as well as products with special shapes that take advantage of the way microwave energy cooks food.

We offer you the power of the Corning name, brand identification second to none, popular existing products that are perfect for new cooking ideas, and exciting new products to fill special needs in the marketplace.

At Corning, we're dedicated to making the most of microwave so you can.

CORNING WARE®
cookware

Because it's so much a part of so many kitchens CORNING WARE® cookware has become a national institution. It's easy to see why. No other cookware has such an incredible range of uses. Prepare food on or in the range, under the broiler and in a microwave oven. Serve in the same attractive dish then store leftovers in refrigerator or freezer.

Each piece is designed to save time and energy. To retain heat so cooking can be done at lower settings. Made of an inert material which can't change the flavor of foods. To be non-porous so odors and flavors wash right out. To be dishwasher safe. To resist stains and scratches. In short, to make cooking and cleaning easier and tabletops prettier.

Which brings us to the bright attractive patterns: the traditional Cornflower Emblem, the popular Spice O' Life® design, and the fresh, new Wildflower™ pattern.

CORNING WARE cookware: the most versatile cookware in the whole darn kitchen.

PYREX® ware

Good cooks have been depending on PYREX® ware ever since Corning invented its heat-resistant glass in 1915.

Cooks depend on its durability. The fact it can go from refrigerator-freezer directly into a preheated oven.

And they depend on its versatility. For baking, serving and storing.

They admire its practicality. Food odors and flavors wash right out and, of course, it's dishwasher safe.

Microwave owners depend on PYREX ware because the microwave energy passes cleanly through the glass to cook the food. And, happily, so many PYREX ware shapes fit the microwave energy pattern so well.

Finally, cooks depend on its adaptability. They mix and match PYREX ware compatibles with CORELLE® livingware patterns for a totally coordinated table.

PYREX ware. We all depend on it.

CORELLE® livingware

CORELLE® livingware is made of a special heat and break-resistant glass that gives it a durability, versatility and practicality unmatched by any other dinnerware.

It has the "ring" and translucency of china yet it is extremely durable. It can go straight from storing food to warming it in the oven or microwave.

Use it everyday. It's dishwasher safe. It's stackable. It's made for informal use and it's available in plain white or with beautiful border designs to reflect your good taste. All are color-keyed to today's favorite kitchen colors and coordinate with PYREX® ware cook and serve pieces.

And Corning guarantees to replace CORELLE livingware if it breaks, chips, crazes or stains during two years of normal household use. No wonder it's America's best-selling dinnerware.

CORELLE® Expressions™ livingware

Five elegant patterns make CORELLE® Expressions™ dinnerware a beautiful expression of your lifestyle. Of course they are as durable, versatile, and practical as the original CORELLE livingware. But they are as different as you are.

And Corning guarantees to replace CORELLE Expressions livingware if it breaks, chips, crazes or stains during two years of normal household use. CORELLE Expressions livingware. It's going to change the way America thinks about dinnerware.

Finally, cooks count on PYREX to always offer a complete selection of items that can be used both in the kitchen and throughout their house. They turn to new Fireside for a warm, mellow look. And prefer the Store 'N' See food containers that match CORNING WARE® cookware and CORELLE® livingware. And choose from a variety of looks in the new and elegant Un-Candle® Collection.

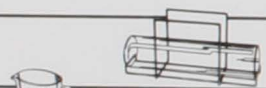

PYREX ware. We all depend on it.

Most CORNING WARE® products and replacement bowls are available with the Cornflower Emblem. Many are available in Spice O' Life® and Wildflower™ designs. To specify a design add numbers shown under the design to the catalog number. (Example, for a 1-Qt. Saucepan bowl in Spice O' Life, add -8 to the Part Number A-1-B. This makes the desired Part No. A-1-B-8.)
